STATE OF NEW YORK
Mario M. Cuomo, Governor

DEPARTMENT OF LABOR
Thomas F. Hartnett, Commissioner

NEW YORK STATE DEPARTMENT OF LABOR
DIVISION OF RESEARCH AND STATISTICS
JEREMY P. SCHRAUF, DIRECTOR

This monthly bulletin presents basic labor area information for New York State as a whole and for selected labor market areas. Statistics for New York are developed in cooperation with the Employment and Training Administration and the Bureau of Labor Statistics of the United States Department of Labor. Parallel information for the country as a whole and for other states may be found in *Employment and Earnings* and *Monthly Labor Review* published by the United States Department of Labor.

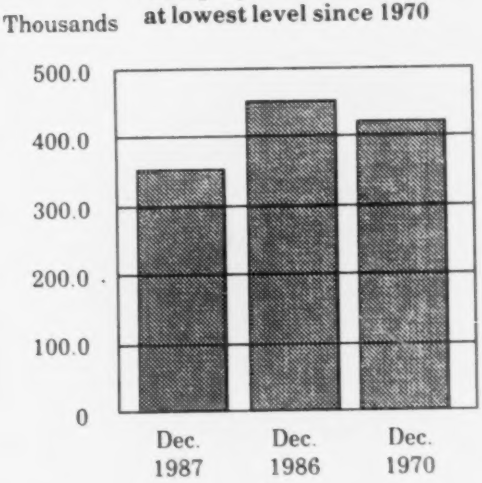
MONTH IN REVIEW
December 1987

Civilian Labor Force

The state unemployment rate moved significantly lower, falling 0.7 of a percentage point from November to 4.2 percent in December 1987. In December 1986, the jobless rate, at 5.4 percent, was much higher.

Unemployed for December at lowest level since 1970



Resident employment increased 17,000 over the month to 8,184,000 in December. Over the year, the number of New Yorkers with jobs was up 190,000.

Total unemployment was down sharply between November and December, decreasing 68,000 to 355,000 (reflecting declines in unemployed job leavers and unemployed entrants to the labor force). The current unemployment level was thelowest December on record for the series which extends back to 1970. Since December 1986, the number of jobseekers has declined 105,000.

On an annual average basis, the state jobless rate stood at 4.8 percent in 1987, down from 6.3 percent in 1986

Nonfarm Employment

New York's nonfarm job count (which excludes agricultural workers, the self-employed, unpaid family workers and domestic workers in private households) increased 18,700 over the month to 8,272,900 in December 1987, an all-time high. The nonfarm upswing reflected seasonal hiring in retail trade. (The effects of "Black Monday", October 19th, continued to be minimal as of the December survey week. Job losses in the financial section, however, will intensify in early 1988 as announced layoffs take place.) Since December 1986, the state's nonfarm jobs have swelled by 198,600. During 1987, New York's nonfarm employment averaged 8,095,300, or 189,700 higher than in 1986, marking the first time the average exceeded 8 million.

Trade, government, and services employment exceeded previous records. The rise in trade jobs (+30,100) reflected the hiring of temporary help by retailers to handle holiday sales, especially department stores and apparel stores. The return to work of strikers in the wholesale liquor industry also boosted trade employment.Holiday hiring by post offices dominated the 3,900 advance in public sector jobs. Services (+2,800) presented a mixed picture with job gains outweighing job losses. The largest increases were reported by the business services and health services industries. Seasonal cutbacks in agricultural services and private college and university jobs accounted for the deepest losses.

Jobs in finance, insurance, and real estate, and construction set record highs for December. The number of finance, insurance and real estate jobs (+2,000) was slightly higher than a month ago, with most components up. The security and commodity brokerage industry, which has more than doubled since 1979, suffered a small loss in December. Despite weather-related cutbacks, construction employment (-12,200) was at a high for December.

A 7,500 job loss in manufacturing tempered the nonfarm upturn. The apparel industry was responsible for two-thirds of the factory job decline. The remaining major industry division, transportation and public utilities, showed no employment change over the month.

EXPLANATION OF DATA

EMPLOYED AND UNEMPLOYED

Employed and Unemployed. Employment and unemployment estimates prepared by the New York State Department of Labor are developed under a cooperative federal-state program administered by the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor. The Current Population Survey (CPS)--the official survey instrument for measuring labor force attachment in the United States--is a monthly survey of about 60,000 households conducted throughout the nation by trained interviewers. Employment and unemployment data for New York State and New York City are based directly on responses of households within the state and city which are represented in the CPS sample.

The size of the CPS sample is not sufficient to provide reliable estimates for labor areas in the "balance of state" (state less New York City). In these areas, a series of factors are applied to administrative statistics from state unemployment insurance (UI) operations and to payroll statistics from establishment surveys to provide data on resident employment and unemployment. Data for these labor areas are adjusted so they add to "balance of state" totals.

These revised procedures, which were put into effect in January 1978, are designed to make the estimates more comparable from state to state and to incorporate more current data in the estimating process.

Employed. Employed persons are all those who during the week including the 12th of the month, (a) did any work at all as paid employees or in their own business or profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, or (b) did not work but who had jobs or businesses from which they were temporarily absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs. Each employed person is counted only once.

Unemployed. Unemployed persons are all those persons who did not work during the week including the 12th of the month, who made specific efforts to find a job within the past four weeks, and who were available for work during the week except for temporary illness. Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they had been laid off, or (b) were waiting to report to a new wage or salary job with 30 days.

Civilian Labor Force. The civilian labor force comprises all civilians classified as employed or unemployed in accordance with the criteria described above. The civilian labor force participation rate is the ratio of the civilian labor force to the civilian noninstitutional population.

Rate of Unemployment. The rate is the total number of unemployed persons expressed as a percentage of the employed and unemployed, i.e., as a percentage of the civilian labor force.

Not in the Labor Force. Not in the labor force includes all persons 16 years of age or older who are not classified as employed or unemployed.

NONAGRICULTURAL EMPLOYMENT, HOURS AND EARNINGS

Benchmark. Represents a comprehensive count of employment for the various nonagricultural industries as of the first quarter of each year. The primary source of benchmark information is employment data received from establishments covered by the New York State Unemployment

Insurance Law. Benchmark data for the remainder are obtained from the records of other private and governmental agencies. Employment estimates for the latest benchmark year and for the previous year are normally subject to revision annually. Current estimates are based on the March 1986 benchmark level for each industry.

Hours and earnings data are analyzed each year to maintain continuity of series.

Earnings, Average. For manufacturing, the averages cover production and related workers only. For the remaining industries, averages cover all nonsupervisory employees and working supervisors unless otherwise specified.

--**Earnings, Average Hourly.** Represents payrolls divided by total number of hours worked or paid for (including paid holiday, vacation, sick leave hours) during period reported. Total payroll includes both straight-time and premium pay. The averages are influenced by the amount of premium pay, as well as by changes in composition of labor force, changes in wage rates, upgrading of employees, etc., and consequently should not be interpreted as wage rates.

--**Earnings, Average Weekly.** Derived by multiplying average weekly hours by average hourly earnings. Includes premium wages for overtime and night shift work and payments made on piecework or incentive basis. The averages are affected by changes in length of workweek, part-time work, stoppages for varying causes, labor turnover, and absenteeism.

Employment, Nonfarm. Estimates include all nonfarm wage and salary workers who received pay for any part of the pay period including the 12th of the month. Persons on paid sick leave, paid holiday or paid vacation are included, but those on leave without pay for the entire payroll period are excluded. Persons on the payroll of more than one establishment during the period are counted each time reported. Self-employed persons, unpaid family workers, and domestics are excluded.

Historical Continuity. Historical continuity of statistics of average hours and earnings of manufacturing production workers has been interrupted for a number of industry groups because of changes in the composition of reporting samples or changes in the relative weight of individual industries in group totals. The starting month of a revised series is identified in a footnote in the issue in which the revision is introduced. Some series have been discontinued pending improvement in the reporting samples.

Hours, Average Weekly. See *Earnings, Average* for description of workers covered. The averages represent total number of hours worked (including overtime) or paid for (including paid holiday, vacation, and sick leave hours) during week divided by number of employees. The averages are affected by amount of labor turnover during week, changes in amount of overtime hours, and by changes in ratio of full-time or part-time eployment.

--**Hours, Average Weekly Overtime.** Represents total number of overtime hours worked by production workers during the week divided by total number of production workers. Overtime hours include those for which premiums were paid because those hours were in excess of the number of hours of either the straight-time workday or the workweek. Hours worked on Saturday, Sunday or holidays are included only if premium wage rates were paid.

Nonagricultural Establishments. All employing units except commercial and noncommercial farms, international government and private households.

Production Workers. Includes working foremen and all nonsupervisory workers (including leadmen and trainees) engaged in fabricating, processing, assembling, inspection, receiving, storage, handling, packing, warehousing, shipping, maintenance, repair, janitorial and watchman services, product development, auxiliary production for plant's own use (e.g., power plant), and in record-

keeping and other services closely associated with the above production operations. Excludes supervisory employees (above the working foremen level) and their clerical staffs, routemen, salesmen and force-account construction workers.

Reference Week of the Month. Employment, payrolls, hours, and earnings data are based on reports from firms covering a pay period, usually the week, including the 12th of the month.

METROPOLITAN STATISTICAL AREA

A metropolitan statistical area (MSA) is defined according to a set of detailed standards prepared by the Federal Committee on MSAs. Under these standards, which were revised in 1980, areas are designated as an MSA in one of two ways: If there is a city of at least 50,000 population, or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. In New York State, MSAs are defined in terms of entire counties. In addition to the county containing the main city, an MSA also includes additional counties having strong economic and social ties to the central county.

Most MSA definitions are not subject to change until after the next national census. However, supplemental announcements of a few new MSAs may be issued in the spring of each year, generally because additional cities have reached the 50,000 level according to official population estimates.

If an area has more than 1 million population and meets certain other specified requirements, it will now be termed a Consolidated Metropolitan Statistical Area (CMSA), consisting of major components recognized as Primary Metropolitan Statistical Areas (PMSAs).

A number of areas in the state do not meet the criteria for recognition as an MSA but estimates are published for them. These areas are called Labor Market Areas (LMAs).

The geographic compostion of the areas (which differ from the administrative jurisdictions of the unemployment insurance and job service program) is given below.

Albany-Schenectady-Troy MSA. Albany, Montgomery, Greene, Rensselaer, Saratoga and Schenectady counties.
Binghamton MSA. Broome and Tioga counties.
Buffalo-Niagara Falls CMSA. Erie and Niagara counties.
Buffalo PMSA. Erie County.
Elmira MSA. Chemung County.
Glens Falls MSA. Warren and Washington counties.
Nassau-Suffolk PMSA. Nassau and Suffolk counties.
New York City. Bronx, Kings, New York, Queens and Richmond counties.
New York Combined Area. Bronx, Kings, Nassau, New York, Queens, Richmond, Putnam, Rockland, Suffolk and Westchester counties.
New York PMSA. New York City and Putnam, Rockland and Westchester counties.
Niagara Falls PMSA. Niagara County.
Orange County PMSA. Orange County.
Poughkeepsie MSA. Dutchess County.
Rochester MSA. Livingston, Monroe, Ontario, Orleans and Wayne Counties.
Rockland LMA. Rockland County.
Syracuse MSA. Madison, Onondaga and Oswego counties.
Utica-Rome MSA. Herkimer and Oneida counties.
Westchester LMA. Westchester County.

INDUSTRIAL CLASSIFICATION

Data are classified in accordance with the 1972 edition of the *Standard Industrial Classification (SIC) Manual* prepared by the U.S. Office of Management and Budget. Coverage of the classification *services and miscellaneous* varies geographically. For New York State and New York City, this classification includes: the services industry division; forestry, fisheries and selected services relating to agriculture; and nonclassifiable establishments. For space requirements on the statistical tables, the formal SIC title for most of the industry groups have been replaced by the short SIC title as contained in Appendix B of the 1972 edition of the *SIC Manual-List of short SIC titles*. SIC titles used for groupings of two or more two-digit manufacturing industries reflect, to the extent possible, the respective components.

MISCELLANEOUS EXPLANATIONS

Effect of rounding. Detail figures may not add to total because of rounding.

Revisions. Revised figures are preceded by an "r" when first published.

KEY

Blank or-	Series not available due to inadequate sample size or other technical reasons.
n.a.	Data not available at date of publication.
n.c.	Not comparable with current data due to a break in series.
d	Figures withheld to avoid disclosure of data of individual reporting units.
*	Less than 0.05 percent.
r	Revised.

OTHER RECURRENT REPORTS

1. **Employment Trends.** Monthly for New York State. Highlights current developments in employment and unemployment.

2. **Labor Area Summary.** Monthly for the 11 major labor areas of the state. Includes analysis of employment and unemployment developments. Obtainable from district offices of the Bureau of Labor Market Information.

3. **Annual Labor Area Report.** Economic developments and outlook, population and labor force characteristics and trends, employment developments and outlook by industry and occupation, trends in employment and unemployment. Fiscal year reports are available for the state, selected major labor areas and New York City.

4. **Unemployment Insurance Tax Rates.** Annual. Rates by industry and size of firm and effects of factors that entered into determination of rates.

5. **Occupational Employment Statistics.** Series of individual triennial reports analyzing and detailing occupational patterns by industry sector: manufacturing, selected nonmanufacturing, wholesale and retail trade, regulated industries, and federal, state and local government.

6. **Collective Bargaining Settlements in New York State.** Quarterly. Summarizes each settlement (changes in wages and fringe benefits) affecting 250 or more workers.

7. **Calendar of Collective Bargaining, New York State, 1988.** This report lists all agreements covering 500 or more workers known to the Division of Research that expire or are subject to a wage reopening in 1988. The report is organized by month of expiration or reopening and, within each month, by industry.

8. **Statistics on Work Stoppages, New York State.** Annual. Data on the number of strikes, the number of workers involved and man-days idle; describes major work stoppages.

9. **Work Stoppages in New York State.** Monthly. Listing gives parties, number of workers directly affected, locations and dates.

10. **Consumer Price Index, Selected Areas and Population Groups.** This bimonthly report presents tabular material on the Consumer Price Index for the United States, New York City SMSA, Buffalo SMSA, and by selected urban population size class. Data are presented for all urban consumers, and wage earners and clerical workers.

SPECIAL REPORTS

Special Reports 15, 16, 19 and/or 20 may be obtained by sending a check or money order, payable to the New York State Department of Labor, to the Publications Unit.

11. **Employment Problems of Older Workers in New York State, 1979.** This report, the first of three annual reports dealing with employment opportunities of older workers, was prepared in response to a mandate in a 1978 amendment to the New York State Labor Law. Topics discussed include the characteristics of older workers in the United States and New York State, and the access to employment opportunities for older workers. The report also makes recommendations for changes to provide increased job opportunities for older workers in New York State. April 1980.

12. **Occupational Brief.** Occupational briefs are available for: *Computer Programmer, Cosmetologist, General Duty (Registered) Nurse, Licensed Practical Nurse, Occupational Therapist and Assistant, and Physical Therapist and Assistant.* The booklets, intended primarily for use by youth and counselors, include typical job duties performed, earnings expected, typical hours and days worked, working conditions, educational requirements, job locations, opportunities for advancement, employment outlook, and other related information.

13. **Affirmative Action Data, Total, Female and Minority Population: 1980.** This booklet provides data from the 1980 Census for New York State, standard metropolitan statistical areas (SMSA's), counties, and subdivisions with population of 25,000 or more, for use in preparing or assessing affirmative actions plans. Tables show total population, and populations of females and minorities, with distributions by race and Hispanic origin. March 1982.

15. **High-Technology Industries in New York State.** Acting on a commission from the NYS Science and Technology Foundation, the Battelle Corporation identified 52 high-technology industries which are both desirable and feasible for New York State. The industries in which New York has the best competitive position are the subject of this report. The report includes information on employment and wages in these 52 industries, detailed by four-digit-SIC industry code and by area. Where possible, comparisons have been made with high-technology industries nationwide. April 1983. Price $5.00.

16. **Occupations in High-Technology Industries in New York State.** This report contains information on the occupations found in 52 high-technology industries selected for their potential for long-term growth in the state; it complements *High-Technology Industries in New York State.* The report includes sections covering occupational staffing patterns, significant occupations, apprenticeship occupations, assemblers, educational requirements, occupational supply and demand, and occupational outlook. July 1983. Price $5.00

17. **Total and Civilian Labor Force Summary, Selected Demographic Groups, New York State, Counties, and SMSA's, 1980.** This booklet contains labor force data from the 1980 Census for New York State, its standard metropolitan statistical areas, counties, and New York City, for use in developing and assessing affirmative action plans. Tables include: total and civilian labor force; employment, unemployment, and the unemployment rate for all persons 16 years of age and older and for females, blacks, American Indians, Eskimos, and Aleuts, Asians and Pacific Islanders, and persons of Hispanic origin. Percent distributions are also shown. March 1983.

18. **Civilian Labor Force by Occupation, Selected Demographic Groups, 1980.** These tables, which contain data from the 1980 Census, can be used in developing and assessing affirmative action plans. They show civilian labor force data by occupation for persons aged 16 and over. Data are also included for females, minorities, Hispanics, blacks, and other races. Tables are available for New York State, Standard Metropolitan Statistical Areas, and counties. February 1984.

19. **The Jobseeker.** A 106-page guide designed primarily to assist young people entering the job market. Contains sections on the explanation of the job market/labor force, kinds of employers, kinds of occupations, how to choose an occupation, chances of finding a job, what to do to find a job, how to prepare a resume, how to complete an employment application, how to do well at a job interview. Also contains occupational profiles on 133 occupations of interest to youth, with information on each regarding: number of employed, where found, job outlook, education needed, personal characteristics, and earnings. (First five copies are free. Additional copies are available at 50 cents per copy.) February 1986.

20. **Occupations Licensed or Certified by New York State.** This publication contains licensing requirements for 65 occupations (training, tests and fees) as well as information on employment outlook, earnings, and working conditions for these occupations. The report also includes a list of apprenticable occupations. May 1987. Price $10.00.

B-PUBLICATIONS

231. **The Garment Industry in New York State.** A report on the economic conditions of the garment idustry in New York State. The first section reviews problems encountered in the early years of the industry. The second section reviews trends in apparel manufacturing in the state, touching on subjects such as type of operation, diversity of products, wage rates, loss of apparel manufacturing establishments and employment to other states, competition from imports. The data presented cover 1980 or the latest year for which information exists.

235. **A History of Unemployment Insurance Legislation in the United States and New York State, 1935-1983.** A report on the background of the unemployment insurance system and changes in federal and state legislation from 1935 to 1983.

SPECIAL BULLETINS

Special Bulletins may be obtained by sending a check or money order, payable to the New York State Department of Labor, to the Office of Communications, New York State Department of Labor, W. Averell Harriman State Office Building Campus, Albany, New York 12240.

246. **Directory of Labor Unions and Employee Organizations in New York State, 1985-86.** This edition lists names and addresses of principal or executive officers of over 5,000 local, state and national or international employee organizations representing workers in New York State. Both public employee and private industry unions are included in the directory. Price $10.00.

LABOR RESEARCH REPORTS

85-4. **Statistics Relative to the New York State Unemployment Insurance Fund, 1936-1984.** This publication brings together updated historical statistics pertaining to the New York State Unemployment Insurance Fund. Data in each table extend as far back over the history of the UI program as they are available.

87-1. **Occupational Injuries and Illnesses Survey, State and Local Government, New York State, 1985.** An annual survey by the Labor Department of work-related fatalities, injuries and illnesses in the public sector. The survey is required by the New York Public Employee Safety and Health Act of 1980.

87-2. **Unemployment Insurance Beneficiaries in New York State, Benefit Year Ending in 1985.** Describes personal characteristics, work background, and benefit experience of unemployed workers who drew benefits in 1985.

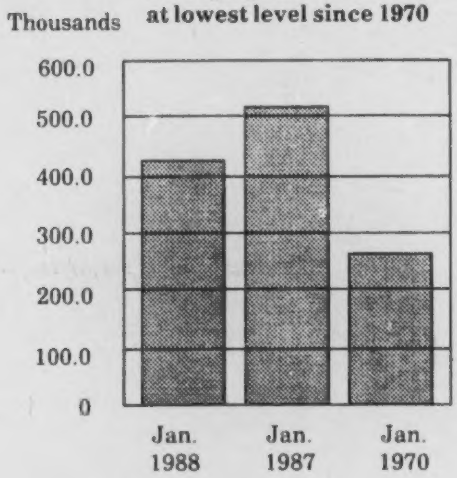
MONTH IN REVIEW
January 1988

Civilian Labor Force

The unemployment rate in New York State rose seasonally in January 1988, climbing 0.8 of a percentage point from December 1987 to 5.0 percent. Compared with a year ago, the current rate was lower by 1.2 percentage points.

Unemployed for January at lowest level since 1970



Resident employment declined 75,000 over the month to 8,096,000 in January. The reduction was mostly attributable to normal winter-related and post-holiday cutbacks. The January 1988 employment level was 133,000 higher than a year ago.

The number of unemployed persons increased 72,000 from December to 427,000, the lowest for January since 1970 (264,000). Since January 1987, unemployment has declined 96,000.

Nonfarm Employment

Nonagricultural employment (which excludes agricultural workers, the self-employed, unpaid family workers and domestic workers in private households) fell 195,300 from December 1987 to 8,024,200, in January 1988. Post-holiday cutbacks and winter-related slowdowns in business activity caused the sharp downturn. Long-term job growth, however, was evident as the state's nonfarm job count was at a record high for the month.

The heaviest seasonal job losses were in trade, services, construction, and government. Trade, down 81,600, accounted for over 40 percent of the total nonfarm downswing as most industry components furloughed temporary help hired to accomodate holiday shoppers. Services job losses (-35,900) were heaviest in private education, business, and recreation services. Construction employment declined 28,700 as work approached its anticipated February low for the year. Public employment was down 15,000, primarily because of normal January contractions in community college payrolls. Despite these reductions, employment in all of these industry division was at record highs for the month.

Finance, insurance, and real estate employment (-4,600) was down more than average for January due to cutbacks in the security and commodity brokerage industry. Additional layoffs are expected in the months ahead based on the widely publicized intentions of major firms in the financial industry. In spite of these job losses, employment in the finance, insurance and real estate group was well above previous February job levels.

Employment contractions in the remaining industry groups were seasonal. Job cuts by nondurable goods employers accounted for 65 percent of the manufacturing drop (-20,500) with the largest losses in the apparel and food industries. The seasonal decline in durable goods manufacturing jobs was slightly less than usual, presumably in response to a lower dollar. The 8,300 reduction in transportation and public utilities employment largely reflected a slowdown in trucking activity.

Compared with a year ago, the state's nonfarm job count in January 1988 was higher by 184,900. All industry divisions, except manufacturing (-7,100), reported higher job levels than in January 1987. Services (+ 85,400) accounted for the largest portion of the nonfarm upturn.

ANNUAL REVISIONS OF NONFARM EMPLOYMENT ESTIMATES NEW YORK STATE, NEW YORK CITY AND SELECTED AREAS BY INDUSTRY, 1986-1987

Monthly estimates of wage and salary in nonfarm establishments in New York State, New York City, and selected areas by industry for the years 1986-1987 presented on pages 7 to 102 reflect the annual revisions to the 1987 benchmark. These estimates supersede those previously published for 1986 and 1987 in the January 1987 through December 1987 issues of the *Employment Review*.

Employment estimates are adjusted to reflect revisions in the benchmarks of the covered non-covered segments of the nonagricultural employment series. Employment estimates for establishments covered by the New York State Unemployment Insurance Law were adjusted to employment levels through 1987. Employment estimates for the noncovered sector such as interstate railroads, nonprofit religious, charitable, scientific, social and educational organizations and portions of government were adjusted based upon the latest information made available through the U.S. Bureau of Labor Statistics and other governmental agencies.

EMPLOYEES IN NONAGRICULTURAL ESTABLISHMENTS, BY INDUSTRY
NEW YORK STATE, 1986, JANUARY THRU JUNE

EXPLANATION OF DATA

EMPLOYED AND UNEMPLOYED

Employed and Unemployed. Employment and unemployment estimates prepared by the New York State Department of Labor are developed under a cooperative federal-state program administered by the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor. The Current Population Survey (CPS)--the official survey instrument for measuring labor force attachment in the United States--is a monthly survey of about 60,000 households conducted throughout the nation by trained interviewers. Employment and unemployment data for New York State and New York City are based directly on responses of households within the state and city which are represented in the CPS sample.

The size of the CPS sample is not sufficient to provide reliable estimates for labor areas in the "balance of state" (state less New York City). In these areas, a series of factors are applied to administrative statistics from state unemployment insurance (UI) operations and to payroll statistics from establishment surveys to provide data on resident employment and unemployment. Data for these labor areas are adjusted so they add to "balance of state" totals.

These revised procedures, which were put into effect in January 1978, are designed to make the estimates more comparable from state to state and to incorporate more current data in the estimating process.

Employed. Employed persons are all those who during the week including the 12th of the month, (a) did any work at all as paid employees or in their own business or profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, or (b) did not work but who had jobs or businesses from which they were temporarily absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs. Each employed person is counted only once.

Unemployed. Unemployed persons are all those persons who did not work during the week including the 12th of the month, who made specific efforts to find a job within the past four weeks, and who were available for work during the week except for temporary illness. Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they had been laid off, or (b) were waiting to report to a new wage or salary job with 30 days.

Civilian Labor Force. The civilian labor force comprises all civilians classified as employed or unemployed in accordance with the criteria described above. The civilian labor force participation rate is the ratio of the civilian labor force to the civilian noninstitutional population.

Rate of Unemployment. The rate is the total number of unemployed persons expressed as a percentage of the employed and unemployed, i.e., as a percentage of the civilian labor force.

Not in the Labor Force. Not in the labor force includes all persons 16 years of age or older who are not classified as employed or unemployed.

NONAGRICULTURAL EMPLOYMENT, HOURS AND EARNINGS

Benchmark. Represents a comprehensive count of employment for the various nonagricultural industries as of the first quarter of each year. The primary source of benchmark information is employment data received from establishments covered by the New York State Unemployment

Insurance Law. Benchmark data for the remainder are obtained from the records of other private and governmental agencies. Employment estimates for the latest benchmark year and for the previous year are normally subject to revision annually. Current estimates are based on the March 1987 benchmark level for each industry.

Hours and earnings data are analyzed each year to maintain continuity of series.

Earnings, Average. For manufacturing, the averages cover production and related workers only. For the remaining industries, averages cover all nonsupervisory employees and working supervisors unless otherwise specified.

--**Earnings, Average Hourly.** Represents payrolls divided by total number of hours worked or paid for (including paid holiday, vacation, sick leave hours) during period reported. Total payroll includes both straight-time and premium pay. The averages are influenced by the amount of premium pay, as well as by changes in composition of labor force, changes in wage rates, upgrading of employees, etc., and consequently should not be interpreted as wage rates.

--**Earnings, Average Weekly.** Derived by multiplying average weekly hours by average hourly earnings. Includes premium wages for overtime and night shift work and payments made on piecework or incentive basis. The averages are affected by changes in length of workweek, part-time work, stoppages for varying causes, labor turnover, and absenteeism.

Employment, Nonfarm. Estimates include all nonfarm wage and salary workers who received pay for any part of the pay period including the 12th of the month. Persons on paid sick leave, paid holiday or paid vacation are included, but those on leave without pay for the entire payroll period are excluded. Persons on the payroll of more than one establishment during the period are counted each time reported. Self-employed persons, unpaid family workers, and domestics are excluded.

Historical Continuity. Historical continuity of statistics of average hours and earnings of manufacturing production workers has been interrupted for a number of industry groups because of changes in the composition of reporting samples or changes in the relative weight of individual industries in group totals. The starting month of a revised series is identified in a footnote in the issue in which the revision is introduced. Some series have been discontinued pending improvement in the reporting samples.

Hours, Average Weekly. See *Earnings, Average* for description of workers covered. The averages represent total number of hours worked (including overtime) or paid for (including paid holiday, vacation, and sick leave hours) during week divided by number of employees. The averages are affected by amount of labor turnover during week, changes in amount of overtime hours, and by changes in ratio of full-time or part-time eployment.

--**Hours, Average Weekly Overtime.** Represents total number of overtime hours worked by production workers during the week divided by total number of production workers. Overtime hours include those for which premiums were paid because those hours were in excess of the number of hours of either the straight-time workday or the workweek. Hours worked on Saturday, Sunday or holidays are included only if premium wage rates were paid.

Nonagricultural Establishments. All employing units except commercial and noncommercial farms, international government and private households.

Production Workers. Includes working foremen and all nonsupervisory workers (including leadmen and trainees) engaged in fabricating, processing, assembling, inspection, receiving, storage, handling, packing, warehousing, shipping, maintenance, repair, janitorial and watchman services, product development, auxiliary production for plant's own use (e.g., power plant), and in record-

keeping and other services closely associated with the above production operations. Excludes supervisory employees (above the working foremen level) and their clerical staffs, routemen, salesmen and force-account construction workers.

Reference Week of the Month. Employment, payrolls, hours, and earnings data are based on reports from firms covering a pay period, usually the week, including the 12th of the month.

METROPOLITAN STATISTICAL AREA

A metropolitan statistical area (MSA) is defined according to a set of detailed standards prepared by the Federal Committee on MSAs. Under these standards, which were revised in 1980, areas are designated as an MSA in one of two ways: If there is a city of at least 50,000 population, or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. In New York State, MSAs are defined in terms of entire counties. In addition to the county containing the main city, an MSA also includes additional counties having strong economic and social ties to the central county.

Most MSA definitions are not subject to change until after the next national census. However, supplemental announcements of a few new MSAs may be issued in the spring of each year, generally because additional cities have reached the 50,000 level according to official population estimates.

If an area has more than 1 million population and meets certain other specified requirements, it will now be termed a Consolidated Metropolitan Statistical Area (CMSA), consisting of major components recognized as Primary Metropolitan Statistical Areas (PMSAs).

A number of areas in the state do not meet the criteria for recognition as an MSA but estimates are published for them. These areas are called Labor Market Areas (LMAs).

The geographic compostion of the areas (which differ from the administrative jurisdictions of the unemployment insurance and job service program) is given below.

Albany-Schenectady-Troy MSA. Albany, Montgomery, Greene, Rensselaer, Saratoga and Schenectady counties.
Binghamton MSA. Broome and Tioga counties.
Buffalo-Niagara Falls CMSA. Erie and Niagara counties.
Buffalo PMSA. Erie County.
Elmira MSA. Chemung County.
Glens Falls MSA. Warren and Washington counties.
Nassau-Suffolk PMSA. Nassau and Suffolk counties.
New York City. Bronx, Kings, New York, Queens and Richmond counties.
New York Combined Area. Bronx, Kings, Nassau, New York, Queens, Richmond, Putnam, Rockland, Suffolk and Westchester counties.
New York PMSA. New York City and Putnam, Rockland and Westchester counties.
Niagara Falls PMSA. Niagara County.
Orange County PMSA. Orange County.
Poughkeepsie MSA. Dutchess County.
Rochester MSA. Livingston, Monroe, Ontario, Orleans and Wayne Counties.
Rockland LMA. Rockland County.
Syracuse MSA. Madison, Onondaga and Oswego counties.
Utica-Rome MSA. Herkimer and Oneida counties.
Westchester LMA. Westchester County.

INDUSTRIALCLASSIFICATION

Data are classified in accordance with the 1972 edition of the *Standard Industrial Classification (SIC) Manual* prepared by the U.S. Office of Management and Budget. Coverage of the classification *services and miscellaneous* varies geographically. For New York State and New York City, this classification includes: the services industry division; forestry, fisheries and selected services relating to agriculture; and nonclassifiable establishments. For space requirements on the statistical tables, the formal SIC title for most of the industry groups have been replaced by the short SIC title as contained in Appendix B of the 1972 edition of the *SIC Manual-List of short SIC titles*. SIC titles used for groupings of two or more two-digit manufacturing industries reflect, to the extent possible, the respective components.

MISCELLANEOUS EXPLANATIONS

Effect of rounding. Detail figures may not add to total because of rounding.

Revisions. Revised figures are preceded by an "r" when first published.

KEY

Blank or-	Series not available due to inadequate sample size or other technical reasons.
n.a.	Data not available at date of publication.
n.c.	Not comparable with current data due to a break in series.
d	Figures withheld to avoid disclosure of data of individual reporting units.
*	Less than 0.05 percent.
r	Revised.

OTHER RECURRENT REPORTS

1. **Employment Trends.** Monthly for New York State. Highlights current developments in employment and unemployment.

2. **Labor Area Summary.** Monthly for the 11 major labor areas of the state. Includes analysis of employment and unemployment developments. Obtainable from district offices of the Bureau of Labor Market Information.

3. **Annual Labor Area Report.** Economic developments and outlook, population and labor force characteristics and trends, employment developments and outlook by industry and occupation, trends in employment and unemployment. Fiscal year reports are available for the state, selected major labor areas and New York City.

4. **Unemployment Insurance Tax Rates.** Annual. Rates by industry and size of firm and effects of factors that entered into determination of rates.

5. **Occupational Employment Statistics.** Series of individual triennial reports analyzing and detailing occupational patterns by industry sector: manufacturing, selected nonmanufacturing, wholesale and retail trade, regulated industries, and federal, state and local government.

6. **Collective Bargaining Settlements in New York State.** Quarterly. Summarizes each settlement (changes in wages and fringe benefits) affecting 250 or more workers.

7. **Calendar of Collective Bargaining, New York State, 1988.** This report lists all agreements covering 500 or more workers known to the Division of Research that expire or are subject to a wage reopening in 1988. The report is organized by month of expiration or reopening and, within each month, by industry.

8. **Statistics on Work Stoppages, New York State.** Annual. Data on the number of strikes, the number of workers involved and man-days idle; describes major work stoppages.

9. **Work Stoppages in New York State.** Monthly. Listing gives parties, number of workers directly affected, locations and dates.

10. **Consumer Price Index, Selected Areas and Population Groups.** This bimonthly report presents tabular material on the Consumer Price Index for the United States, New York City SMSA, Buffalo SMSA, and by selected urban population size class. Data are presented for all urban consumers, and wage earners and clerical workers.

SPECIAL REPORTS

Special Reports 13, 14, 17 and/or 18 may be obtained by sending a check or money order, payable to the New York State Department of Labor, to the Publications Unit.

11. **Occupational Brief.** Occupational briefs are available for: *Computer Programmer, Cosmetologist, General Duty (Registered) Nurse, Licensed Practical Nurse, Occupational Therapist and Assistant, and Physical Therapist and Assistant.* The booklets, intended primarily for use by youth and counselors, include typical job duties performed, earnings expected, typical hours and days worked, working conditions, educational requirements, job locations, opportunities for advancement, employment outlook, and other related information.

12. **Affirmative Action Data, Total, Female and Minority Population: 1980.** This booklet provides data from the 1980 Census for New York State, standard metropolitan statistical areas (SMSA's), counties, and subdivisions with population of 25,000 or more, for use in preparing or assessing affirmative actions plans. Tables show total population, and populations of females and minorities, with distributions by race and Hispanic origin. March 1982.

13. **High-Technology Industries in New York State.** Acting on a commission from the NYS Science and Technology Foundation, the Battelle Corporation identified 52 high-technology industries which are both desirable and feasible for New York State. The industries in which New York has the best competitive position are the subject of this report. The report includes information on employment and wages in these 52 industries, detailed by four-digit-SIC industry code and by area. Where possible, comparisons have been made with high-technology industries nationwide. April 1983. Price $5.00.

14. **Occupations in High-Technology Industries in New York State.** This report contains information on the occupations found in 52 high-technology industries selected for their potential for long-term growth in the state; it complements *High-Technology Industries in New York State*. The report includes sections covering occupational staffing patterns, significant occupations, apprenticeship occupations, assemblers, educational requirements, occupational supply and demand, and occupational outlook. July 1983. Price $5.00

15. **Total and Civilian Labor Force Summary, Selected Demographic Groups, New York State, Counties, and SMSA's, 1980.** This booklet contains labor force data from the 1980 Census for New York State, its standard metropolitan statistical areas, counties, and New York City, for use in developing and assessing affirmative action plans. Tables include: total and civilian labor force; employment, unemployment, and the unemployment rate for all persons 16 years of age and older and for females, blacks, American Indians, Eskimos, and Aleuts, Asians and Pacific Islanders, and persons of Hispanic origin. Percent distributions are also shown. March 1983.

16. **Civilian Labor Force by Occupation, Selected Demographic Groups, 1980.** These tables, which contain data from the 1980 Census, can be used in developing and assessing affirmative action plans. They show civilian labor force data by occupation for persons aged 16 and over. Data are also included for females, minorities, Hispanics, blacks, and other races. Tables are available for New York State, Standard Metropolitan Statistical Areas, and counties. February 1984.

17. **The Jobseeker.** A 106-page guide designed primarily to assist young people entering the job market. Contains sections on the explanation of the job market/labor force, kinds of employers, kinds of occupations, how to choose an occupation, chances of finding a job, what to do to find a job, how to prepare a resume, how to complete an employment application, how to do well at a job interview. Also contains occupational profiles on 133 occupations of interest to youth, with information on each regarding: number of employed, where found, job outlook, education needed, personal characteristics, and earnings. (First five copies are free. Additional copies are available at 50 cents per copy.) February 1986.

18. **Occupations Licensed or Certified by New York State.** This publication contains licensing requirements for 65 occupations (training, tests and fees) as well as information on employment outlook, earnings, and working conditions for these occupations. The report also includes a list of apprenticable occupations. May 1987. Price $10.00.

B-PUBLICATIONS

235. **A History of Unemployment Insurance Legislation in the United States and New York State, 1935-1983.** A report on the background of the unemployment insurance system and changes in federal and state legislation from 1935 to 1983.

SPECIAL BULLETINS

Special Bulletins may be obtained by sending a check or money order, payable to the New York State Department of Labor, to the Office of Communications, New York State Department of Labor, W. Averell Harriman State Office Building Campus, Albany, New York 12240.

254. **Directory of Labor Unions and Employee Organizations in New York State, 1987-88.** This edition lists names and addresses of principal or executive officers of over 5,000 local, state and national or international employee organizations representing workers in New York State. Both public employee and private industry unions are included in the directory. Price $10.00.

LABOR RESEARCH REPORTS

85-4. **Statistics Relative to the New York State Unemployment Insurance Fund, 1936-1984.** This publication brings together updated historical statistics pertaining to the New York State Unemployment Insurance Fund. Data in each table extend as far back over the history of the UI program as they are available.

87-2. **Unemployment Insurance Beneficiaries in New York State, Benefit Year Ending in 1985.** Describes personal characteristics, work background, and benefit experience of unemployed workers who drew benefits in 1985.

88-1. **Occupational Injuries and Illnesses Survey, State and Local Government, New York State, 1986.** An annual survey by the Labor Department of work-related fatalities, injuries and illnesses in the public sector. The survey is required by the New York Public Employee Safety and Health Act of 1980.

MONTH IN REVIEW
February 1988

Civilian Labor Force

New York State's unemployment rate fell 0.6 of a percentage point from January to 4.4 percent in February 1988. The current rate was 1.2 percentage points below the year-ago rate and was the lowest for the month of February since 1970 (4.0 percent).

The number of employed residents declined 42,000 from January to 8,054,000 in February 1988, surpassing last year's record high for the month of February by 143,000.

Total unemployment was 372,000 in February 1988, a reduction of 55,000 over the month and a decrease of 94,000 from a year earlier. This was the lowest February level since 1970 (294,000).

Nonfarm Employment

Nonagricultural employment (which excludes agricultural workers, the self-employed, unpaid family workers and domestic workers in private households) improved as expected in February 1988, rising 27,200 from January to 8,051,400. Recalls in public and private education paced the job upturn.

Four industry divisions--services, finance, insurance and real estate, construction, and trade--were at record-high levels for the month of February. Services employment was up as anticipated, rising 23,200 over the month, with nearly all industry components reporting higher job levels. Over half of the services gain occurred in private education as workers returned following mid-winter recess. Employ-ment in the other industry divisions declined, but remained well above previous February job levels. Finance, insurance and real estate, which is normally stable at this time of year, suffered job cutbacks totaling 2,500. The bulk of the downturn in this division was caused by layoffs at money center banks and brokerage houses. Seasonal influences prompted the reductions in construction (-6,000) and trade (-16,400) employment. All construction components shared prominently in the downturn, while cutbacks by general merchandisers accounted for nearly three-quarters of the decline in trade employment.

Public employment in February was at an all-time high. The return of workers at community colleges following semester break sparked the upturn in government employment (+19,400).

Manufacturing jobs were up 9,100 from January with seasonal influences playing a major role. The nondurable goods segment accounted for eight out of 10 job additions, with employers in the apparel industry reporting the largest number of hires. The durable goods segment, which normally declines in February, increased due to recalls in the motor vehicle industry. Employment in the transportation and public utilities group was up 300 from January.

Since February 1987, the state has gained 176,300 nonfarm jobs. Over-the-year gains in services were responsible for nearly half of the overall nonfarm expansion.

INSURED EMPLOYMENT AND PAYROLLS
FIRST QUARTER 1987

INSURED COVERAGE. Under the New York State Unemployment Insurance Law as a result of an amendment effective January 1960, an employer of individuals other than household workers becomes liable for the unemployment insurance tax if within a single calendar quarter he pays remuneration of $300 or more. As a result of an amendment effective January 1966, an employer who employs one or more household workers and pays them cash remuneration of $500 or more within a single calendar quarter becomes liable for the tax. In effect, employers of one or more workers become liable for the unemployment insurance tax on the first day of the calendar quarter in which remuneration is paid.

Most persons employed by nonprofit organizations were covered by unemployment insurance beginning January 1, 1971 as a result of "stand-by" legislation originally enacted in 1965 which became operative because of the federal amendments of 1970.

A nonprofit organization becomes liable when it makes cash payments to its employees of $1,000 or more in a calendar quarter. Effective January 1, 1972, liability also begins if the nonprofit organization employs four or more persons on each of 20 days in at least 20 different weeks during the current or preceding calendar year.

Effective January 1, 1978, the services of persons engaged in a teaching or other professional capacity at a nonprofit educational institution below the college level were covered by unemployment insurance.

Agricultural labor was also covered as of January 1, 1978. Exceptions exist for employers of fewer than 10 persons or those with a quarterly payroll of less than $20,000.

Effective with first quarter 1985 data, employees of the federal government, New York State, and local government units covered for unemployment compensation purposes are included in this series.

Certain groups continue to be excluded from coverage. Those excluded are interstate railroads, the self-employed, services of an individual employer's wife, husband or minor child and certain other small groups of workers.

Insured employment data are not intended to reflect a continuous series over the years. The data only represent experience within a specific calendar period. Significant factors which affect comparability are changes in the coverage provisions of the law, such as those mentioned above, as well as employment reclassification changes. The reclassification changes are occasioned by industrial and/or geographic classification code changes. They may be economic or noneconomic. Economic code changes are made in the quarter when the product or business activity of an establishment has changes (industry code) or whenever an employer moves from one location to another in New York State (geographic code). Noneconomic code changes are made effective in the first quarter of each year. Noneconomic code changes arise from (1) structural changes in the *Standard Industrial Classification Manual*, and (2) newly disclosed information affecting either the industrial or geographic location.

REPORTING UNIT. An establishment, or reporting unit, is usually a single place of business, engaged in a single business activity, and operated by a single employer. Business firms operating more than one establishment, in different counties, or different activities in one or more counties, usually submit a separate report for each unit unless the payrolls are not maintained separately. However, if an employer operates two or more establishments in a single county that are engaged in the same business activity, the establishments usually are reported together as a single unit. If two or more units of a single employer are in a single physical location but maintain separate payroll records and engage in distinct or separate business activities, then each unit is treated as a separate reporting unit.

EMPLOYMENT. The tables in this report include all employment covered under the New York State Unemployment Insurance Law for each of the three months in the quarter. The employment count represents the number of full-time and part-time employees earnings wages or salaries for the payroll period including the 12th of the month. Included are persons on paid vacations and on paid sick leave. Workers temporarily earning no wages because of labor-management disputes, layoffs or other reasons are not reported as employed. Persons on the payroll of more than one establishment during the same reference week are reported more than once.

TOTAL QUARTERLY PAYROLLS. Total quarterly payrolls cover all wages and salaries paid to individuals in insured employment.

INDUSTRIAL CLASSIFICATION. Data are classified in accordance with the 1972 edition of the *Standard Industrial Classification Manual* prepared by the U.S. Office of Management and Budget. This edition replaces the 1967 edition. Structural changes as a result of revisions in the *Manual* are incorporated in data beginning with the first quarter of 1975.

When a 2-digit manufacturing industry has less than 100 employees or less than three reporting units, figures are combined in "all other durable goods" or "all other nondurable goods."

The category "all other" includes agriculture, forestry and fisheries, mining and unclassified establishments.

COUNTY CLASSIFICATION. County classification of employment and payroll data is based on the physical location of the establishment. The category "statewide" which appears at the end of the county listing covers all reporting units not classified by county. Included in this category are: reporting units without a fixed location within the state, those with a significant number of employees in more than one county for which separate data are not available, and those for which county location has not yet been determined.

LABOR AREA. A major labor area is a defined geographical section of New York State in which there is a major concentration of employment and economic activity. For purpose of labor statistics, a labor area includes a whole county or counties even though the economic activity may be centered in a segment of the whole. The composition of the major labor areas (which differ from the administrative jurisdictions of the unemployment insurance and employment service program) is given below:

- *Albany-Schenectady-Troy*. Albany, Montgomery, Greene, Rensselaer, Saratoga and Schenectady counties.
- *Binghamton*. Broome and Tioga counties.
- *Buffalo*. Erie and Niagara counties.
- *Nassau-Suffolk*. Nassau and Suffolk counties.
- *New York City*. Bronx, Kings, New York, Queens and Richmond counties.
- *Rochester*. Livingston, Monroe, Ontario, Orleans and Wayne counties.
- *Syracuse*. Madison, Onondaga and Oswego counties.
- *Utica-Rome*. Herkimer and Oneida counties.
- *Westchester*. Westchester County.

SOURCE OF DATA. Reports submitted quarterly by employers subject to the New York State Unemployment Insurance Law.

INSURED EMPLOYMENT IN SELECTED COUNTIES WITH EMPLOYMENT OF 100,000 OR MORE

FIRST QUARTER 1987

Data for 9 of the 10 counties in New York State in which average insured employment exceeds 100,000 or more are presented in the following tables. Westchester County is not included in this section as the industry detail for this county was shown in Table 4 in the preceding tables.

In order to safeguard the confidential nature of individual employer reports, data on some industries in some counties were consolidated into statistically valid groupings.

EXPLANATION OF DATA

EMPLOYED AND UNEMPLOYED

Employed and Unemployed. Employment and unemployment estimates prepared by the New York State Department of Labor are developed under a cooperative federal-state program administered by the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor. The Current Population Survey (CPS)--the official survey instrument for measuring labor force attachment in the United States--is a monthly survey of about 60,000 households conducted throughout the nation by trained interviewers. Employment and unemployment data for New York State and New York City are based directly on responses of households within the state and city which are represented in the CPS sample.

The size of the CPS sample is not sufficient to provide reliable estimates for labor areas in the "balance of state" (state less New York City). In these areas, a series of factors are applied to administrative statistics from state unemployment insurance (UI) operations and to payroll statistics from establishment surveys to provide data on resident employment and unemployment. Data for these labor areas are adjusted so they add to "balance of state" totals.

These revised procedures, which were put into effect in January 1978, are designed to make the estimates more comparable from state to state and to incorporate more current data in the estimating process.

Employed. Employed persons are all those who during the week including the 12th of the month, (a) did any work at all as paid employees or in their own business or profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, or (b) did not work but who had jobs or businesses from which they were temporarily absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs. Each employed person is counted only once.

Unemployed. Unemployed persons are all those persons who did not work during the week including the 12th of the month, who made specific efforts to find a job within the past four weeks, and who were available for work during the week except for temporary illness. Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they had been laid off, or (b) were waiting to report to a new wage or salary job with 30 days.

Civilian Labor Force. The civilian labor force comprises all civilians classified as employed or unemployed in accordance with the criteria described above. The civilian labor force participation rate is the ratio of the civilian labor force to the civilian noninstitutional population.

Rate of Unemployment. The rate is the total number of unemployed persons expressed as a percentage of the employed and unemployed, i.e., as a percentage of the civilian labor force.

Not in the Labor Force. Not in the labor force includes all persons 16 years of age or older who are not classified as employed or unemployed.

NONAGRICULTURAL EMPLOYMENT, HOURS AND EARNINGS

Benchmark. Represents a comprehensive count of employment for the various nonagricultural industries as of the first quarter of each year. The primary source of benchmark information is employment data received from establishments covered by the New York State Unemployment

Insurance Law. Benchmark data for the remainder are obtained from the records of other private and governmental agencies. Employment estimates for the latest benchmark year and for the previous year are normally subject to revision annually. Current estimates are based on the March 1987 benchmark level for each industry.

Hours and earnings data are analyzed each year to maintain continuity of series.

Earnings, Average. For manufacturing, the averages cover production and related workers only. For the remaining industries, averages cover all nonsupervisory employees and working supervisors unless otherwise specified.

--**Earnings, Average Hourly.** Represents payrolls divided by total number of hours worked or paid for (including paid holiday, vacation, sick leave hours) during period reported. Total payroll includes both straight-time and premium pay. The averages are influenced by the amount of premium pay, as well as by changes in composition of labor force, changes in wage rates, upgrading of employees, etc., and consequently should not be interpreted as wage rates.

--**Earnings, Average Weekly.** Derived by multiplying average weekly hours by average hourly earnings. Includes premium wages for overtime and night shift work and payments made on piecework or incentive basis. The averages are affected by changes in length of workweek, part-time work, stoppages for varying causes, labor turnover, and absenteeism.

Employment, Nonfarm. Estimates include all nonfarm wage and salary workers who received pay for any part of the pay period including the 12th of the month. Persons on paid sick leave, paid holiday or paid vacation are included, but those on leave without pay for the entire payroll period are excluded. Persons on the payroll of more than one establishment during the period are counted each time reported. Self-employed persons, unpaid family workers, and domestics are excluded.

Historical Continuity. Historical continuity of statistics of average hours and earnings of manufacturing production workers has been interrupted for a number of industry groups because of changes in the composition of reporting samples or changes in the relative weight of individual industries in group totals. The starting month of a revised series is identified in a footnote in the issue in which the revision is introduced. Some series have been discontinued pending improvement in the reporting samples.

Hours, Average Weekly. See *Earnings, Average* for description of workers covered. The averages represent total number of hours worked (including overtime) or paid for (including paid holiday, vacation, and sick leave hours) during week divided by number of employees. The averages are affected by amount of labor turnover during week, changes in amount of overtime hours, and by changes in ratio of full-time or part-time eployment.

--**Hours, Average Weekly Overtime.** Represents total number of overtime hours worked by production workers during the week divided by total number of production workers. Overtime hours include those for which premiums were paid because those hours were in excess of the number of hours of either the straight-time workday or the workweek. Hours worked on Saturday, Sunday or holidays are included only if premium wage rates were paid.

Nonagricultural Establishments. All employing units except commercial and noncommercial farms, international government and private households.

Production Workers. Includes working foremen and all nonsupervisory workers (including leadmen and trainees) engaged in fabricating, processing, assembling, inspection, receiving, storage, handling, packing, warehousing, shipping, maintenance, repair, janitorial and watchman services, product development, auxiliary production for plant's own use (e.g., power plant), and in record-

keeping and other services closely associated with the above production operations. Excludes supervisory employees (above the working foremen level) and their clerical staffs, routemen, salesmen and force-account construction workers.

Reference Week of the Month. Employment, payrolls, hours, and earnings data are based on reports from firms covering a pay period, usually the week, including the 12th of the month.

METROPOLITAN STATISTICAL AREA

A metropolitan statistical area (MSA) is defined according to a set of detailed standards prepared by the Federal Committee on MSAs. Under these standards, which were revised in 1980, areas are designated as an MSA in one of two ways: If there is a city of at least 50,000 population, or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. In New York State, MSAs are defined in terms of entire counties. In addition to the county containing the main city, an MSA also includes additional counties having strong economic and social ties to the central county.

Most MSA definitions are not subject to change until after the next national census. However, supplemental announcements of a few new MSAs may be issued in the spring of each year, generally because additional cities have reached the 50,000 level according to official population estimates.

If an area has more than 1 million population and meets certain other specified requirements, it will now be termed a Consolidated Metropolitan Statistical Area (CMSA), consisting of major components recognized as Primary Metropolitan Statistical Areas (PMSAs).

A number of areas in the state do not meet the criteria for recognition as an MSA but estimates are published for them. These areas are called Labor Market Areas (LMAs).

The geographic compostion of the areas (which differ from the administrative jurisdictions of the unemployment insurance and job service program) is given below.

Albany-Schenectady-Troy MSA. Albany, Montgomery, Greene, Rensselaer, Saratoga and Schenectady counties.
Binghamton MSA. Broome and Tioga counties.
Buffalo-Niagara Falls CMSA. Erie and Niagara counties.
Buffalo PMSA. Erie County.
Elmira MSA. Chemung County.
Glens Falls MSA. Warren and Washington counties.
Nassau-Suffolk PMSA. Nassau and Suffolk counties.
New York City. Bronx, Kings, New York, Queens and Richmond counties.
New York Combined Area. Bronx, Kings, Nassau, New York, Queens, Richmond, Putnam, Rockland, Suffolk and Westchester counties.
New York PMSA. New York City and Putnam, Rockland and Westchester counties.
Niagara Falls PMSA. Niagara County.
Orange County PMSA. Orange County.
Poughkeepsie MSA. Dutchess County.
Rochester MSA. Livingston, Monroe, Ontario, Orleans and Wayne Counties.
Rockland LMA. Rockland County.
Syracuse MSA. Madison, Onondaga and Oswego counties.
Utica-Rome MSA. Herkimer and Oneida counties.
Westchester LMA. Westchester County.

INDUSTRIAL CLASSIFICATION

Data are classified in accordance with the 1972 edition of the *Standard Industrial Classification (SIC) Manual* prepared by the U.S. Office of Management and Budget. Coverage of the classification *services and miscellaneous* varies geographically. For New York State and New York City, this classification includes: the services industry division; forestry, fisheries and selected services relating to agriculture; and nonclassifiable establishments. For space requirements on the statistical tables, the formal SIC title for most of the industry groups have been replaced by the short SIC title as contained in Appendix B of the 1972 edition of the *SIC Manual-List of short SIC titles*. SIC titles used for groupings of two or more two-digit manufacturing industries reflect, to the extent possible, the respective components.

MISCELLANEOUS EXPLANATIONS

Effect of rounding. Detail figures may not add to total because of rounding.

Revisions. Revised figures are preceded by an "r" when first published.

KEY

Blank or-	Series not available due to inadequate sample size or other technical reasons.
n.a.	Data not available at date of publication.
n.c.	Not comparable with current data due to a break in series.
d	Figures withheld to avoid disclosure of data of individual reporting units.
*	Less than 0.05 percent.
r	Revised.

OTHER RECURRENT REPORTS

1. **Employment Trends.** Monthly for New York State. Highlights current developments in employment and unemployment.

2. **Labor Area Summary.** Monthly for the 11 major labor areas of the state. Includes analysis of employment and unemployment developments. Obtainable from district offices of the Bureau of Labor Market Information.

3. **Annual Labor Area Report.** Economic developments and outlook, population and labor force characteristics and trends, employment developments and outlook by industry and occupation, trends in employment and unemployment. Fiscal year reports are available for the state, selected major labor areas and New York City.

4. **Unemployment Insurance Tax Rates.** Annual. Rates by industry and size of firm and effects of factors that entered into determination of rates.

5. **Occupational Employment Statistics.** Series of individual triennial reports analyzing and detailing occupational patterns by industry sector: manufacturing, selected nonmanufacturing, wholesale and retail trade, regulated industries, and federal, state and local government.

6. **Collective Bargaining Settlements in New York State.** Quarterly. Summarizes each settlement (changes in wages and fringe benefits) affecting 250 or more workers.

7. **Calendar of Collective Bargaining, New York State, 1988.** This report lists all agreements covering 500 or more workers known to the Division of Research that expire or are subject to a wage reopening in 1988. The report is organized by month of expiration or reopening and, within each month, by industry.

8. **Statistics on Work Stoppages, New York State.** Annual. Data on the number of strikes, the number of workers involved and man-days idle; describes major work stoppages.

9. **Work Stoppages in New York State.** Monthly. Listing gives parties, number of workers directly affected, locations and dates.

10. **Consumer Price Index, Selected Areas and Population Groups.** This bimonthly report presents tabular material on the Consumer Price Index for the United States, New York City SMSA, Buffalo SMSA, and by selected urban population size class. Data are presented for all urban consumers, and wage earners and clerical workers.

SPECIAL REPORTS

Special Reports 13, 14, 17 and/or 18 may be obtained by sending a check or money order, payable to the New York State Department of Labor, to the Publications Unit.

11. **Occupational Brief.** Occupational briefs are available for: *Computer Programmer, Cosmetologist, General Duty (Registered) Nurse, Licensed Practical Nurse, Occupational Therapist and Assistant, and Physical Therapist and Assistant.* The booklets, intended primarily for use by youth and counselors, include typical job duties performed, earnings expected, typical hours and days worked, working conditions, educational requirements, job locations, opportunities for advancement, employment outlook, and other related information.

12. **Affirmative Action Data, Total, Female and Minority Population: 1980.** This booklet provides data from the 1980 Census for New York State, standard metropolitan statistical areas (SMSA's), counties, and subdivisions with population of 25,000 or more, for use in preparing or assessing affirmative actions plans. Tables show total population, and populations of females and minorities, with distributions by race and Hispanic origin. March 1982.

13. **High-Technology Industries in New York State.** Acting on a commission from the NYS Science and Technology Foundation, the Battelle Corporation identified 52 high-technology industries which are both desirable and feasible for New York State. The industries in which New York has the best competitive position are the subject of this report. The report includes information on employment and wages in these 52 industries, detailed by four-digit-SIC industry code and by area. Where possible, comparisons have been made with high-technology industries nationwide. April 1983. Price $5.00.

14. **Occupations in High-Technology Industries in New York State.** This report contains information on the occupations found in 52 high-technology industries selected for their potential for long-term growth in the state; it complements *High-Technology Industries in New York State*. The report includes sections covering occupational staffing patterns, significant occupations, apprenticeship occupations, assemblers, educational requirements, occupational supply and demand, and occupational outlook. July 1983. Price $5.00

15. **Total and Civilian Labor Force Summary, Selected Demographic Groups, New York State, Counties, and SMSA's, 1980.** This booklet contains labor force data from the 1980 Census for New York State, its standard metropolitan statistical areas, counties, and New York City, for use in developing and assessing affirmative action plans. Tables include: total and civilian labor force; employment, unemployment, and the unemployment rate for all persons 16 years of age and older and for females, blacks, American Indians, Eskimos, and Aleuts, Asians and Pacific Islanders, and persons of Hispanic origin. Percent distributions are also shown. March 1983.

16. **Civilian Labor Force by Occupation, Selected Demographic Groups, 1980.** These tables, which contain data from the 1980 Census, can be used in developing and assessing affirmative action plans. They show civilian labor force data by occupation for persons aged 16 and over. Data are also included for females, minorities, Hispanics, blacks, and other races. Tables are available for New York State, Standard Metropolitan Statistical Areas, and counties. February 1984.

17. **The Jobseeker.** A 106-page guide designed primarily to assist young people entering the job market. Contains sections on the explanation of the job market/labor force, kinds of employers, kinds of occupations, how to choose an occupation, chances of finding a job, what to do to find a job, how to prepare a resume, how to complete an employment application, how to do well at a job interview. Also contains occupational profiles on 133 occupations of interest to youth, with information on each regarding: number of employed, where found, job outlook, education needed, personal characteristics, and earnings. (First five copies are free. Additional copies are available at 50 cents per copy.) February 1986.

18. **Occupations Licensed or Certified by New York State.** This publication contains licensing requirements for 65 occupations (training, tests and fees) as well as information on employment outlook, earnings, and working conditions for these occupations. The report also includes a list of apprenticable occupations. May 1987. Price $10.00.

B-PUBLICATIONS

235. **A History of Unemployment Insurance Legislation in the United States and New York State, 1935-1983.** A report on the background of the unemployment insurance system and changes in federal and state legislation from 1935 to 1983.

SPECIAL BULLETINS

Special Bulletins may be obtained by sending a check or money order, payable to the New York State Department of Labor, to the Office of Communications, New York State Department of Labor, W. Averell Harriman State Office Building Campus, Albany, New York 12240.

254. **Directory of Labor Unions and Employee Organizations in New York State, 1987-88.** This edition lists names and addresses of principal or executive officers of over 5,000 local, state and national or international employee organizations representing workers in New York State. Both public employee and private industry unions are included in the directory. Price $10.00.

LABOR RESEARCH REPORTS

85-4. **Statistics Relative to the New York State Unemployment Insurance Fund, 1936-1984.** This publication brings together updated historical statistics pertaining to the New York State Unemployment Insurance Fund. Data in each table extend as far back over the history of the UI program as they are available.

87-2. **Unemployment Insurance Beneficiaries in New York State, Benefit Year Ending in 1985.** Describes personal characteristics, work background, and benefit experience of unemployed workers who drew benefits in 1985.

88-1. **Occupational Injuries and Illnesses Survey, State and Local Government, New York State, 1986.** An annual survey by the Labor Department of work-related fatalities, injuries and illnesses in the public sector. The survey is required by the New York Public Employee Safety and Health Act of 1980.
